Your C.V (Hard copy) may be submitted to the Office of IRDM Faculty Centre

Both Male and Female candidates are encouraged to participate in 'Campus Placement'

Company Name: Pan Seeds Pvt. Ltd.

Brief Profile of the Organization: Pan Seeds was set up in the year 1975 as a single product company engaged in the production and marketing of Jute Seeds. About a decade later, the focus shifted to Rice Seeds as Eastern India was having the largest cultivated area under Rice in the country. The foray into Rice met with huge success simply because of the company's commitment to providing quality seeds to the farmers. The goodwill earned by the company over the years accelerated its growth in Rice seeds beyond expectations. This led the company to expand its market from West Bengal to other parts of Eastern India like Bihar, Jharkhand , Chattisgarh and Eastern Uttar Pradesh. A large number of distributors are now engaged with the company in these areas. The strong network of distributors opened up opportunities in the marketing of Vegetable seeds, Wheat Seeds, Potato Seeds, Oil Seeds and Agriculture Hand Sprayers. While Providing Quality was very close to our hearts, the urge to provide the farmers with better and improved genetics led us to set up in the year 2002 a Research and Development wing focusing solely on breeding of rice.

Location: - Anywhere in Eastern India

Remuneration: - Competitive with market rates depending on candidates' knowledge, skills and experiences.

The last date of submission of the complete application with CV on 08.04.2019

Date: - 04.04.2019
