

Application of Chromatographic Techniques for Natural Products and Phytopharmaceuticals Evaluation: A Hands-on Workshop

27th to 31st January 2025

This program aims to provide participants with in-depth comprehensive training in advanced chromatographic techniques for the qualitative and quantitative analysis of natural products and phytopharmaceuticals, emphasizing hands-on experience with state-of-the-art instrumentation.

Salient Features of Workshop

- Introduction to Natural products and Phytopharmaceuticals
- Basic and Advanced chromatography techniques
- Hands-on experience in High-performance Thin Layer Chromatography including sample extraction
- Participation certificate upon successful completion
- Working lunch and snacks during the workshop
- Accommodation facilities are not included

**Register before
23rd Jan 2025**
